## Loparex Corporate Environmental Policy

It is Loparex Corporate policy to lead, promote, and maintain environmentally responsible practices for the benefit of our customers, employees, and the communities in which we operate.

Loparex strives for continual improvement through the development of specific programs that minimize the environmental cost and potential negative impact of our products, activities, and services.

This will be achieved by:

- Complying with applicable regulations and standards to which we subscribe
- Focusing on material and energy efficiencies
- Supporting pollution prevention and minimization programs
- Reducing waste and finding alternative uses to minimize materials sent to landfills
- Reviewing environmental objectives and monitoring performance.

As a worldwide leader in the Release Liner Industry, Loparex is committed to working with our suppliers, customers, and employees to make sure this policy is met at all locations.

Simon Medley  
Chief Executive Officer
