

# Release Liners for **TAPES**

**ALWAYS ONE STEP AHEAD.** Loparex's wide product range includes direct or polycoated paper and film liners with single or double-sided coating, for general purpose and speciality tape applications. We work closely with the most important tape manufacturers and develop new release liner solutions for traditional tape applications, as well as for new, high-tech tapes used e.g. in manufacturing of digital cameras and mobile phones.

In tape manufacturing, release liners play a more and more important role. New challenging end-use applications are evolving. Top quality release liners are needed with stable differentials, smooth deposition of adhesives, moisture resistance and die-cuttability. **LOPAREX'S RELEASE LINERS FOR TAPES HAVE BEEN DEVELOPED, AND ARE CONSTANTLY AMENDED TO MEET THESE REQUIREMENTS.**

Loparex is committed to supplying products with consistent, homogenous quality to the tape industry. Our involvement in our customers' projects from the very beginning guarantees that optimal release liner solutions are developed in a timely manner, with flexible sampling and pilot runs.

**OUR TECHNICAL EXPERTS ARE AT YOUR DISPOSAL TO DEFINE THE RIGHT PRODUCT COMBINATION FOR YOUR NEEDS.**

**ONE OR DOUBLE-SIDE  
COATED, POLYCOATED  
AND SILICONISED PAPER  
AND FILM RELEASE  
LINERS FOR**

- General tapes
- Packaging tapes
- Masking tapes
- HVAC tapes
- Speciality tapes

STABLE DIFFERENTIAL  
RELEASE

DIE-CUTTABILITY

GOOD DIMENSIONAL  
STABILITY

# Release Liners for TAPES

Product group	Description	Product names	End-uses
<b>Direct coated release papers</b>	Direct coated kraft papers, supercalendered and clay-coated, caliper-controlled glassines.	LOPASIL	General tapes Packaging tapes Masking tapes
<b>Polycoated release papers</b>	In-house extrusion coated and siliconised. Excellent stability, lay-flat and surface smoothness.	POLY SILK	HVAC tapes Speciality tapes
<b>Direct coated release films</b>	High and low density film based release liners for excellent dimensional stability, smoothness and tear strength.	PRIMELINER	
<b>Polycoated release films</b>	Polyolefin coated polyester core liners, offering thin support, flexibility, strength and special surface characteristics.	FILM PLUS
