

## DIRECT COATED PAPERS

The Loparex family of direct coated products, LOPASIL<sup>®</sup>, includes kraft papers that are supercalendered, clay-coated or latex-saturated, and caliper-controlled glassine papers. There is a wide range of basis weights available that can be silicone coated on one or both sides. These liners can also be printed and slit to your individual specifications.

For printed graphics and electronically cut lettering applications, Loparex offers clay-coated kraft papers that are silicone coated on one side. These liners provide stiffness, smoothness, caliper control and consistent release which are essential during the cutting, weeding and application stages.

### SUBSTRATE

#### Supercalendered Kraft Paper

Available basis weights: 40 to 80#/ream (65 to 130 gsm)

#### Glassine

Available basis weights: 31 to 55#/ream (50 to 90 gsm)

#### Clay-coated Kraft Paper

Available basis weights: 34 to 153#/ream (55 to 249 gsm)

#### ESP

Available basis weights: 20 to 37#/ream (33 to 60 gsm)

### CHARACTERISTICS

- Hard smooth surface with good caliper control
- Easy release at high stripping speeds
- Higher basis weight SCKs have excellent rigidity and good die-cutting properties
- Excellent hardness for die-cutting
- Suitable for prime label applications
- Colors available
- Moderate curl resistance and excellent smoothness
- Higher temperature range than polycoated paper
- Backside printable
- High tear and tensile strength due to optimum fiber content and good formation
- Good printability

**LOPASIL<sup>®</sup> release liners for these end-use applications:**

### GRAPHICS

- POS/Advertising
- Corporate & Architectural
- Fleet Marking
- Traffic & Safety

### TAPE

- Transfer Tapes
- Double- and Single-Coated

### LABEL

- Prime and Secondary

### MEDICAL & HYGIENE

- Electrodes
- Transdermal Drug Delivery Systems
- Wound Coverings

### INDUSTRIAL

- Automotive Insulation & Sound Proofing
- Electrical
- Roofing Underlayments & Seam Tapes
- Waterproofing

### COMPOSITES

- Aerospace
- Recreational

# GLOBAL MANUFACTURING AND SERVICE

Our manufacturing and service facilities are strategically located throughout the world to service customers on an international basis. The result is maximum operational efficiency and reduced new product development cycle time. All Loparex products can be delivered globally, at the best possible value to you.
